

App Root

Database Schema

Core Tables

Table	Purpose	Key Columns
<code>profiles</code>	User profiles	id, email, gender, birthday, onboarding_completed, created_at
<code>user_preferences</code>	Settings & preferences	user_id, theme, notifications_enabled

Habits & Routines

Table	Purpose	Key Columns
<code>wellness_routines</code>	Routine definitions	id, name, description, goal, duration_days, tier, category, icon, color
<code>routine_habits</code>	Habits within routines	id, routine_id, title, short_description, detailed_description, science_explanation, tips, cadence, intensity
<code>user_routines</code>	User's enrolled routines	id, user_id, routine_id, start_date, end_date, status, current_day, intensity
<code>scheduled_habits</code>	Daily habit instances	id, user_id, routine_habit_id, scheduled_date, completed, completed_at

<code>copy_blocks</code>	Reusable content blocks	id, key, content
--------------------------	-------------------------	------------------

Journal & Dreams

Table	Purpose	Key Columns
<code>journal_entries</code>	Daily reflections	id, user_id, content, mood, created_at
<code>dream_entries</code>	Dream diary	id, user_id, content, clarity, emotions, themes, created_at

Cycle Tracking

Table	Purpose	Key Columns
<code>cycle_logs</code>	Period & symptom data	id, user_id, date, flow_level, symptoms, notes
<code>cycle_predictions</code>	Predicted cycles	id, user_id, predicted_start, predicted_end

Gamification

Table	Purpose	Key Columns
<code>user_rewards</code>	Sakred Coins balance	user_id, coins, lifetime_earned
<code>achievements</code>	Achievement definitions	id, name, description, icon, requirement

<code>user_achievements</code>	Unlocked achievements	user_id, achievement_id, unlocked_at
--------------------------------	-----------------------	--------------------------------------

AI & Content

Table	Purpose	Key Columns
<code>encyclopedia_articles</code>	Wellness library articles	id, title, category, content, keywords
<code>encyclopedia_chunks</code>	Searchable article chunks	id, article_id, content, keywords
<code>admin_knowledge_docs</code>	AI training documents	id, title, content, category
<code>user_knowledge_docs</code>	User's personal documents	id, user_id, title, content

Subscriptions

Table	Purpose	Key Columns
<code>subscriptions</code>	Premium status	user_id, stripe_customer_id, status, plan, expires_at
<code>newsletter_subscribers</code>	Email list	id, email, subscribed_at

Feature Map

Free Features

- 2 Foundational Routines (Hydration & Energy Reset, Ground & Recharge)
- Wellness Library (searchable encyclopedia)

- Basic Habit Tracking
- Daily Journal with mood tracking
- Dream Diary with clarity/emotion tagging
- Cycle Tracking with phase education
- Gamification (Sakred Coins, achievements)
- Light/Dark theme toggle

Premium Features

- 16+ Premium Routines
- AI Coach (personalized, context-aware)
- Advanced Analytics
- Wearables Integration
- All intensity levels (lite/standard/intense)
- Priority support

Routines Library

Free Tier (2 Routines)

1. **Hydration & Energy Reset** (21 days) - Reset hydration, boost energy
2. **Ground & Recharge** (21 days) - Reduce stress, restore rhythm

Premium Tier (16+ Routines)

3. **Focus & Mental Energy** (28 days) - Cognitive clarity, sustained focus
4. **Clear Mental Fog** (28 days) - Remove brain fog, sharp recall
5. **Appetite & Energy Balance** (28 days) - Stable appetite, steady energy
6. **Deep Rest & Recovery** (28 days) - Optimize sleep, recovery
7. **Detox & Drainage** - Support detox pathways
8. **Gut & Digestion** - Digestive health
9. **Mood & Stress** - Emotional regulation
10. **Skin Health** - Radiant skin from within
11. **Brain & Focus** - Cognitive enhancement
12. **Allergies & Immunity** - Immune support
13. **Hormonal Balance** - Hormone optimization
14. **Inflammation Reset** - Reduce chronic inflammation
15. **Metabolic Health** - Blood sugar, metabolism
16. **Energy & Vitality** - Sustained energy
17. **Sleep Mastery** - Advanced sleep protocols
18. **Nervous System Reset** - Vagal tone, calm

User Flow

1. DISCOVERY

User downloads app → Sees auth screen

2. ONBOARDING

Signs up → Gender → Birthday → Goals → Theme preference

3. ROUTINE SELECTION

Browses routines → Reads descriptions → Selects one → Chooses start date & intensity

4. DAILY ENGAGEMENT

Opens app → Sees today's habits → Completes habits → Earns coins

5. REFLECTION

Journals mood/thoughts → Records dreams → Logs cycle (if applicable)

6. AI COACHING (Premium)

Asks questions → Gets personalized guidance based on:

- Active routine progress
- Journal entries
- Dream patterns
- Cycle phase
- Habit completion history

7. PROGRESS

Views analytics → Unlocks achievements → Sees patterns over time

8. GROWTH

Completes routine → Enrolls in next → Builds sustainable wellness foundation

Technical Stack	
Layer	Technology
Frontend	Expo (React Native) + TypeScript
Backend	Supabase (PostgreSQL + Auth + RLS)
Payments	Stripe
AI	OpenAI GPT-4
Voice	Web Speech API (web) / Whisper (native)
Notifications	expo-notifications
State	React hooks + Supabase real-time
